

Private Property Pesticide By-laws In Canada

Population Statistics by Municipality

The lack of adequate protection from unwanted exposure to lawn pesticides at the federal and provincial level has fueled a growing surge in municipal pesticide ordinances designed to enhance the protection of public health and the environment. **The aggregate number of municipal by-laws in Canada currently stands at 146.** An additional 13 pesticide by-laws are at the draft stage pending adoption.

Municipalities of all sizes have passed various forms of pesticide by-laws. The largest is the *City of Toronto* with a population of 2.5 million while some are as small as *Sainte-Paule, Québec* with a population of 229.

Just under 15 million Canadians, or 47.3% of Canada's total population (based on the 2006 Census), benefiting from enhanced protection from unwanted exposure to synthetic lawn and garden pesticides. This figure includes the gold standard province-wide protection provided under Québec's Pesticide Management Code. There are 1141 municipalities (cities, villages and townships) within Québec.

This summary report was prepared by Mike Christie (Ottawa, Ontario) based upon Statistics Canada's 2006 Community Profiles released on March 13, 2007 and available online at <http://tinyurl.com/2sd2ya>. Any errors or omissions should be addressed to mikechristie@rogers.com.
